been [illegible] Town Improvement works like water Supply have yet to be taken up by the Md bl

3) The rates of lighting tax in some of the important towns in this State are indicated on page flagged L and it will be seen therefrom that the tax at Re 0-4-0 is being levied in many other places. Therefore, the existing rate in the Tarikere Town Municipality cannot perhaps be considered as exhorbitant

4) As the Municipal Council have to augment their resources with a view to take up important Town improvement works, the D C Kadur with has recommended that there is no need to reduce the rate of tax

Since the Md bl will lose about Rs 750 per annum by reducing the lighting tax from Re 0 4-0 to Re 0 2-0 the resolution in question cannot perhaps be sanctioned

Subject - Reduction of lighting cess in the Kolar Town Municipality

Adverting to Government Order No. 5427-9/7 L 38-35-41, dated, 17/20th January 1936, according sanction to the proposal of the Kolar Town Municipal Council, to levy the lighting tax at 0-4-0 per rupee of the house tax under section 61 of the Town Municipalities Act of 1933, I have the honour to state that the Municipal Council, Kolar have at their meeting held on 15th December 1941 resolved that the rate of the lighting cess be reduced from annas four (0-4-0) to annas two (0-2-0) per rupee of house tax, as the existing rate is felt by the public as a great burden and is considered to be too exhorbitant when compared with the rate of cess levied in other Town Municipalities. The Municipal Council, on being asked, how in view of the poor finances of the Municipality, they can afford to lose their income, they have again reiterated their former opinion and have resolved on 29th September 1942 that the loss on account of the proposed reduction be made good by the levy of Octroi on timber, sanctioned in G.O. No. L 1311-6/41-1 112-41-8, dated, 30th July 1942. The required formalities for the reduction of the rate have been observed and no objections have been received from the Public.

2 In this connection, I beg to state that the rate is not unduly high as stated by the Municipal Council, and in most of the Municipalities viz., Shimoga, Hosur, Sirsi, Kundgol, Chikballapur, the rate is annas four (0-4-0). The rate in the Chitradurga Town Municipality is however, 0-1-6 per rupee. I have instructed the Municipal President, to enhance the rate to at least 0-4-0. It is not so much a question of making good the loss under this head by levy on something else, but

but augmenting the resources in all manner possible. The finances are for after the Municipality has ambitions schemes of water Supply and drainage. In the circumstances, I see no reason to reduce the tax on lighting, in the Tarikere Town Municipality
